Contractor Manual

Welcome to the C3 Training Database for Construction Career Collaborative! This software is where you keep track of your employees' training and safety credentials, project participation and assignments, license documents, and more. Your company should already be an accredited employer or project participant to use the database.

If you're not already signed up for C3, head to http://www.constructioncareercollaborative.com for more information!

1. Registration

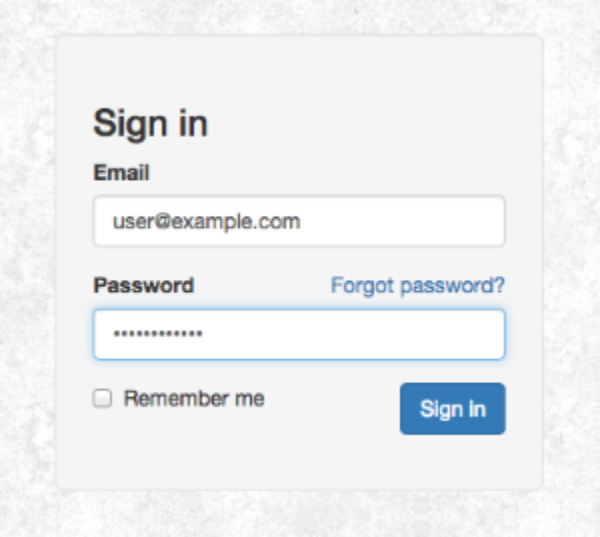
To obtain an account with the C3 Training Database, please contact Construction Career Collaborative and request access. A user confirmation email will be sent to an email address that you provide.

Click the confirmation link in the email to get to the Confirm Your Account page. You will be asked to confirm your name, and set a password for your account. Once this is complete, you can log in and access the application.

2. Accessing the database

2.1. Logging in

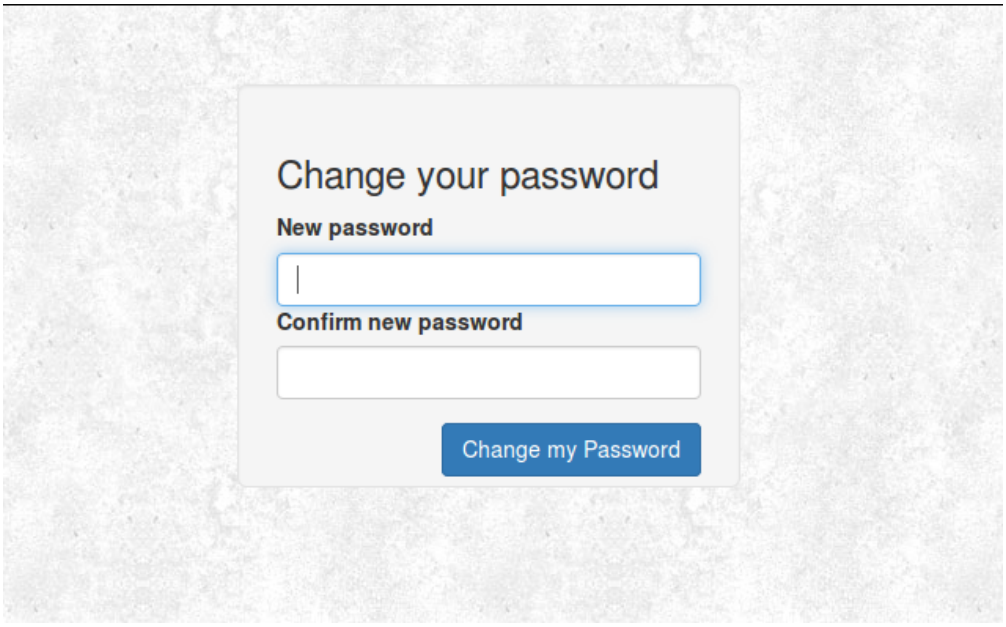
To log in to the database, go to the URL https://c3td.etszone.net. You will be presented with a login page.



Enter your username and password to access the database. You may also check the "Remember me" checkbox to skip this step in the future.

2.2. Resetting your password

If you have forgotten your password, you can reset it using the "Forgot password?" link on the login screen. Enter your email address on the following screen to be sent an email with a password reset link. This link will take you to a page where you can set a new password for your account.



After changing your password, you will be able to log in to the site.

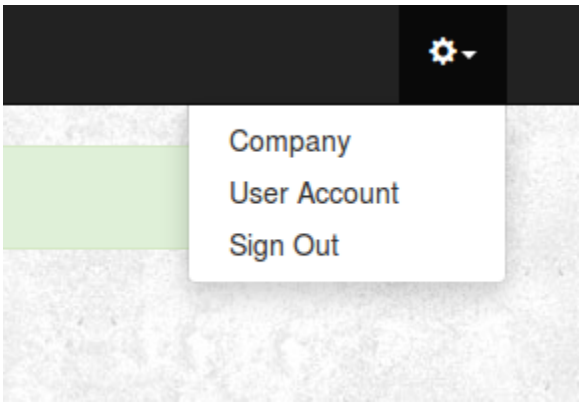
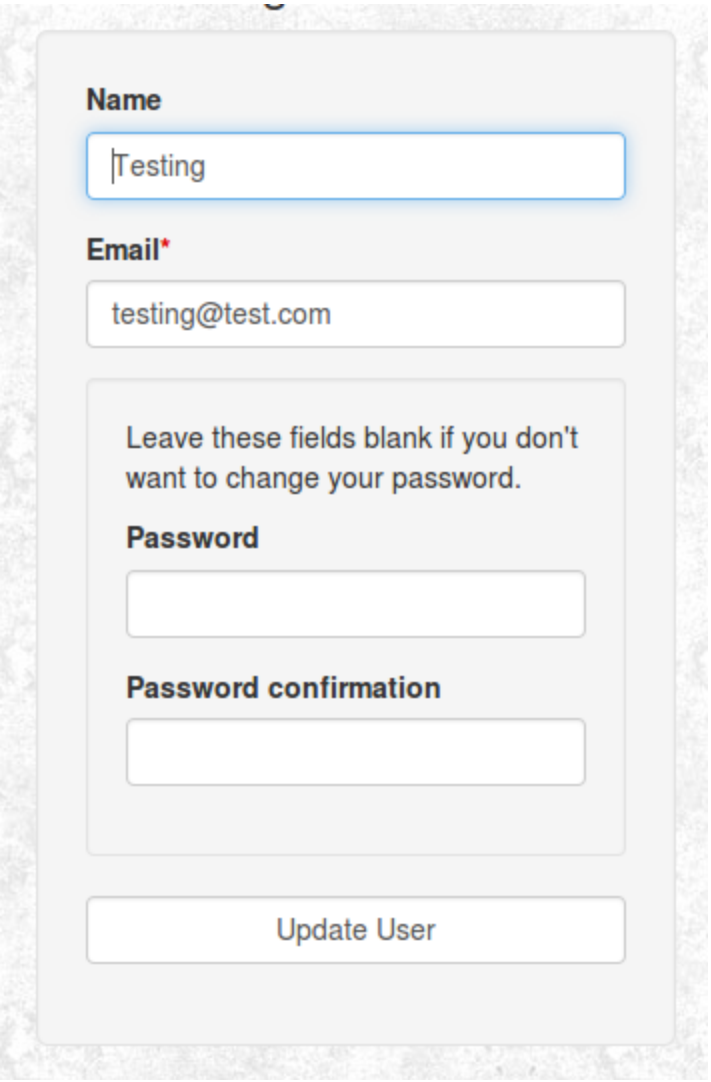
C3 Training Database
www.constructioncareercollaborative.org
Welcome to C3's new training database. We contracted with ETSZONE to write a program for us to help track credentials for the craft workers in our membership.
We are very excited to bring back the database and more importantly excited for the opportunity to hear from you, the end users. We hope that you will take the time to provide us with honest feedback and comments so we make this tool a successful one for all our members.
Please send your comments and questions to Maria Aimone or Chuck Gremillion of C3.
Maria Aimone: maria@constructioncareercollaborative.org
Chuck Gremillion: chuck@constructioncareercollaborative.org
To report a bug, error or incorrect application behavior, please use the "Report a Bug" tab to the right. Or, send an email to the address below.
ETSZONE Support: support@etszone.com
We appreciate your help in this matter and we look forward to making this a very successful tool for your organization.

2.3. Editing your user account

To edit your user account, click the 'user account' link located in the gear menu to the right of the navigation bar.



This will take you to the edit user form. Here you can change your password, name or email address.

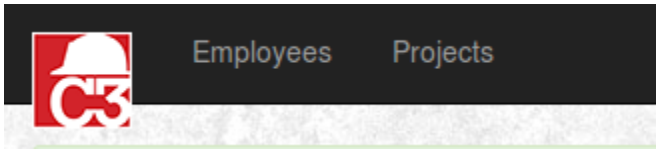


When you are satisfied with your changes, click "Update User" to save your new information. If you have changed your email address, you will receive a reconfirmation email at the new address. You must follow the instructions contained within the email in order to confirm your new address and complete the update.

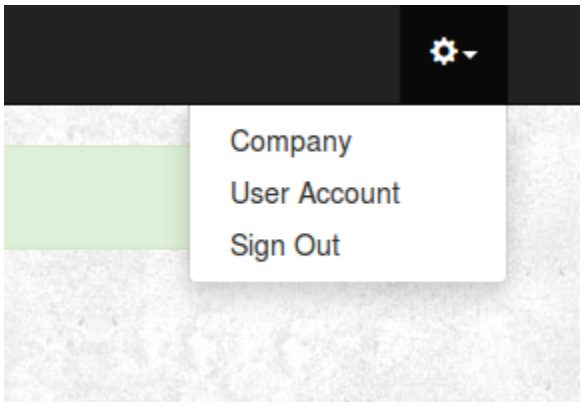
3. Managing your employees

3.1. Adding craft workers

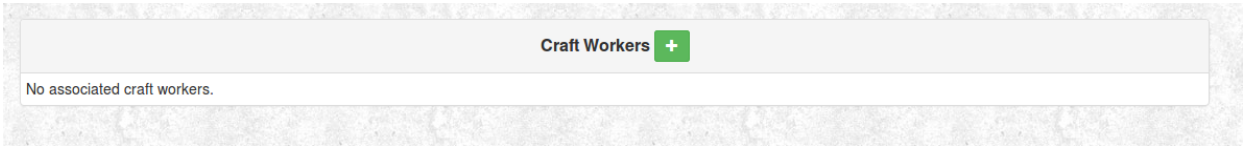
Click the employees tab in the navigation bar at the top of the screen. This will take you to your company profile page.



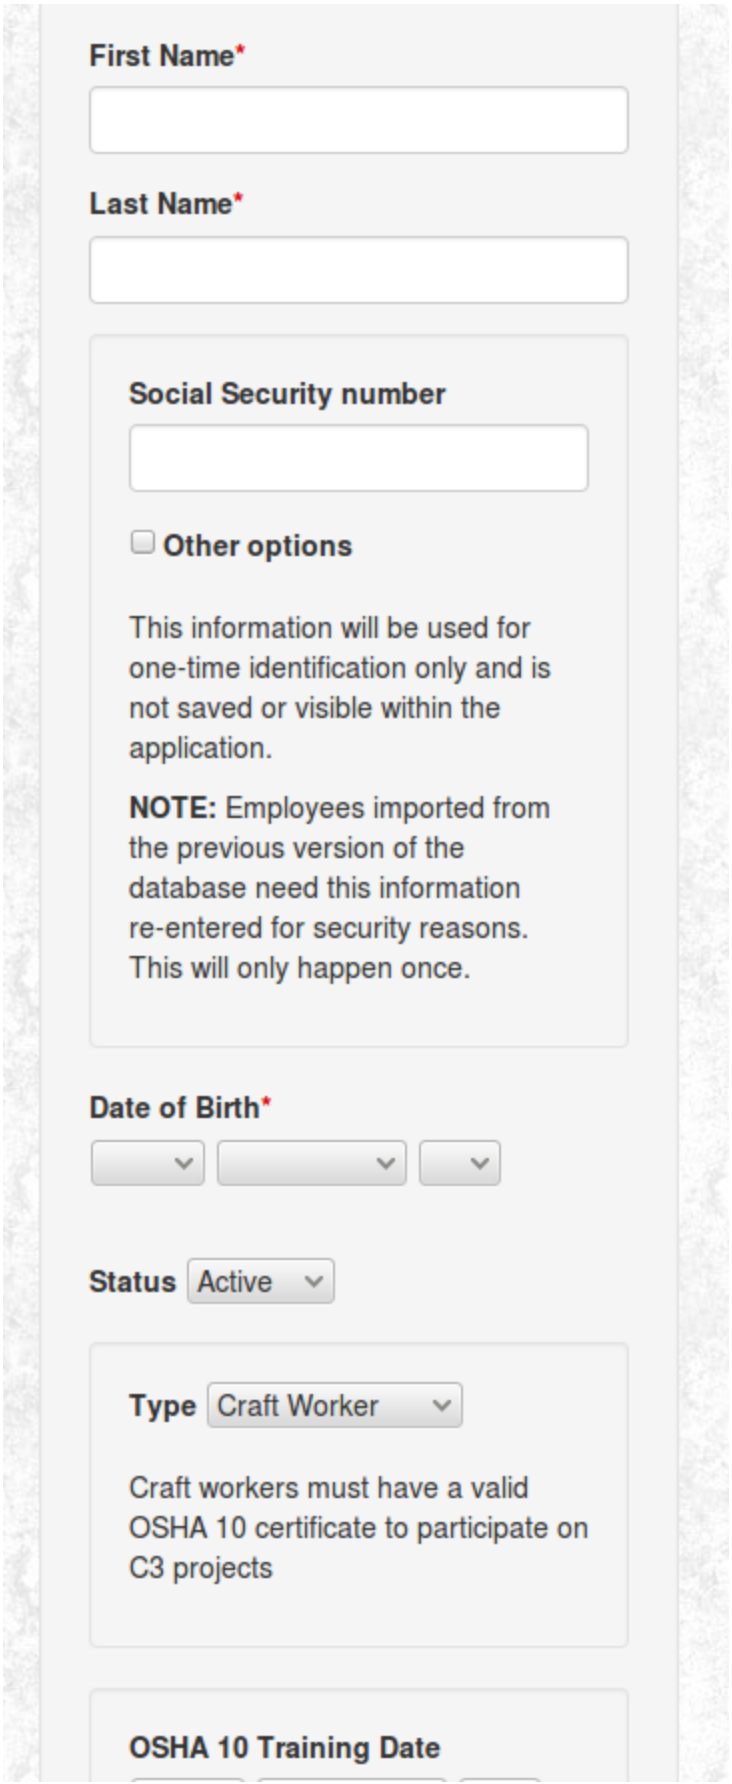
This page can also be accessed by clicking 'Company' in the gear menu to the right of the navigation bar.



On the company profile page, there is a panel titled 'Craft Workers'.



Click the green plus in this panel to add a craft worker. This will take you to the new craft worker form.

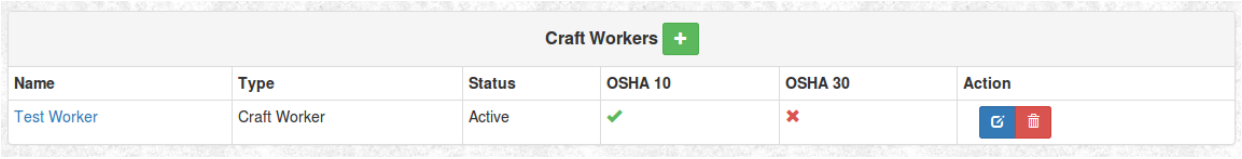


First Name*
Last Name*
Social Security number
Other options
This information will be used for one-time identification only and is not saved or visible within the application.
NOTE: Employees imported from the previous version of the database need this information re-entered for security reasons. This will only happen once.
Date of Birth*
Status Active
Type Craft Worker
Craft workers must have a valid OSHA 10 certificate to participate on C3 projects
OSHA 10 Training Date

Field	Description
SSN/Drivers License Number/Passport Number	Only one of these fields is required. This information will be used for one-time unique identification only and is not saved or visible with the application.
Status	Can be either 'Active' or 'Inactive'. Reflects current activity of craft worker, which the Specialty Contractor is responsible for setting manually.
OSHA 10	Craft workers with the type 'Craft Worker' need a valid OSHA 10 certification to participate on C3 projects.
OSHA 30	Craft workers with the type 'Field Supervisor' need a valid OSHA 30 certification to participate on C3 projects.

Please note that required fields are indicated by a red asterisk on the form. When you are finished entering the worker's information, click submit to create the craft worker.

If there are any errors with the provided information, you will be redirected back to the form, and a warning message will be displayed at the top of the form, explaining the error. If there are no errors, you will be redirected to the company profile page, where you will be able to see the newly added craft worker in the craft workers table.



3.2. Editing a craft worker

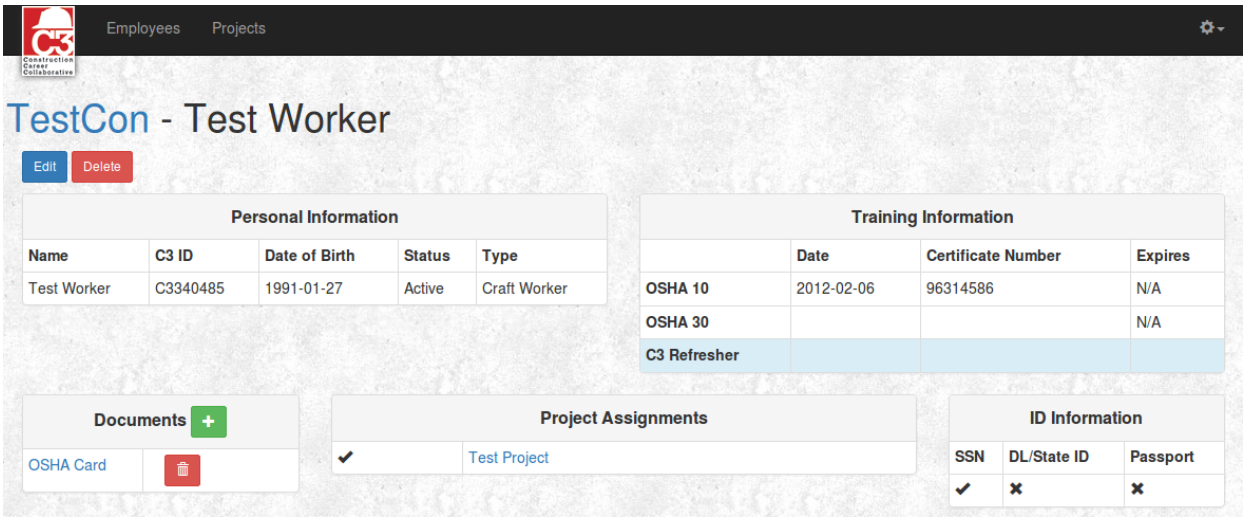
To edit a craft worker's information, click the blue edit button in the action column of the craft workers table. You will be presented with the same form as above, but with the worker data already filled out. Note that the SSN/Driver License/Passport fields will not be present.

3.3. Removing a craft worker

To remove a craft worker, click the red trash button in the action column of the craft workers table.

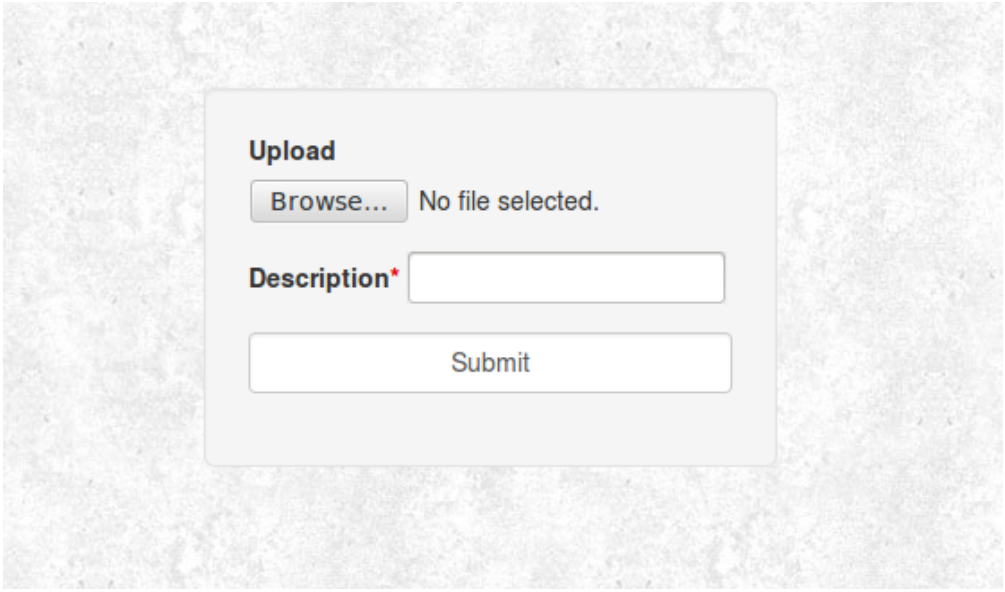
3.4. Viewing a craft worker

To view a craft worker, click their name in the craft workers table. Here you will be able to see all the information relating to the craft worker, including training information, project assignments, and uploaded documents.



3.5. Adding a document to a worker

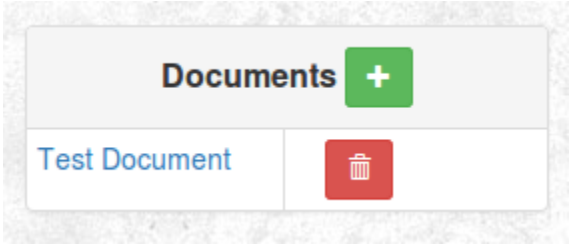
To add a document to a craft worker, click the green plus on the documents panel on the craft worker profile. You will be taken to a page where you can select a file to upload and add a description. You may upload either images or PDF documents.



Click submit to add the file to the craft worker. If the document was successfully uploaded, you will be redirected back to that craft worker's profile, where you will see the document added to the documents table.

3.6. Viewing an uploaded document

From the craft worker profile, click the name of the document to view the document. Click the red trash button next to the description to delete the document.



4. Working with projects

4.1. Confirming participation on a project

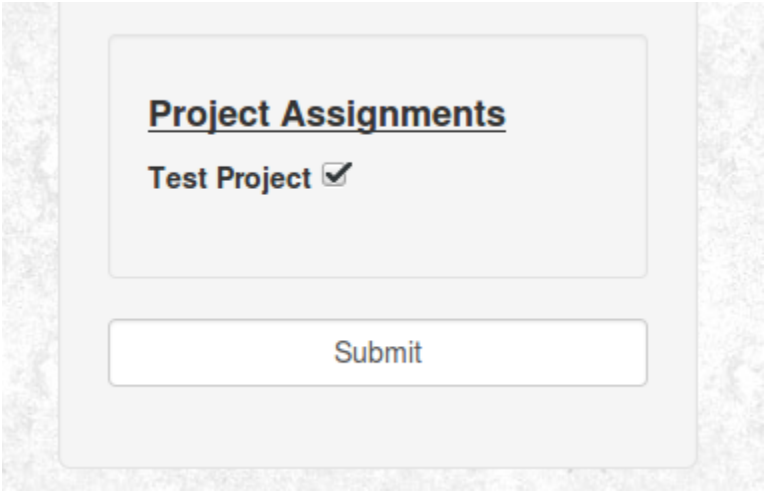
When a Specialty Contractor is added to a C3 project by a C3 Administrator, project Contractor, or another Specialty Contractor employing them, an email will be sent to the Specialty Contractor's primary contact, containing a link to confirm their participation on the project.

Click this link to confirm your company's participation on the project. This will change your company's status on the project from 'Pending' to 'In Progress', allowing you to assign craft workers to the project, as well as invite Specialty Contractors to the project.

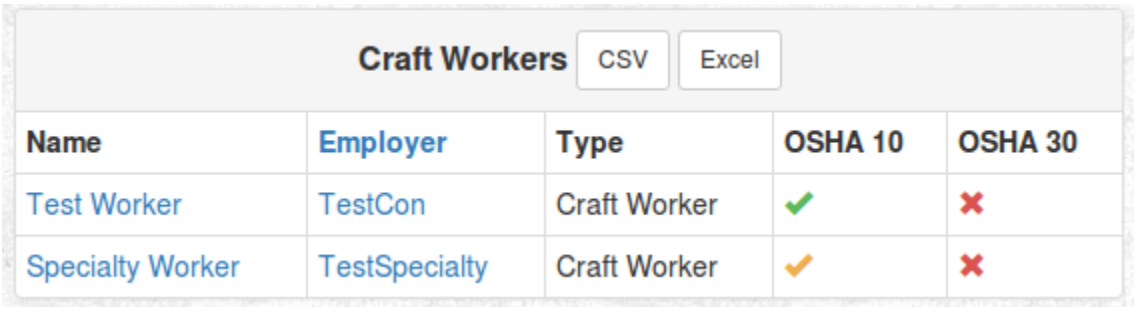
4.2. Assigning workers to a project

To assign craft workers to a project, edit the craft worker you wish to add to the project. At the bottom of the form there will be a section called project assignments, which lists all the projects your company is participating on, along with a check box indicating if they are assigned to that project or not.

Select the project or projects for the worker in question, and click submit to save the assignments.



After assigning a craft worker to a project, they will be listed on the craft workers table on the project page.

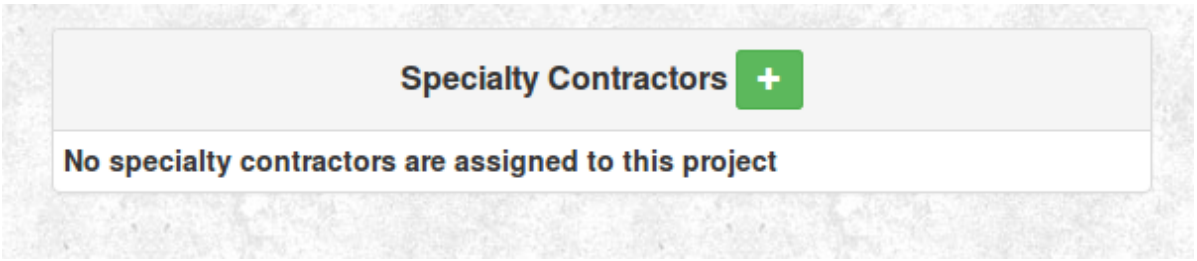


4.3. Exporting a list of workers on a project

To export a list of all craft workers on a project to a CSV or Excel file, click the corresponding button on the craft workers table on the project page. You will be prompted to download the file after clicking.

4.4. Inviting other contractors to a project

To invite Specialty Contractors to a project, click the green plus on the specialty contractors table on the project page.

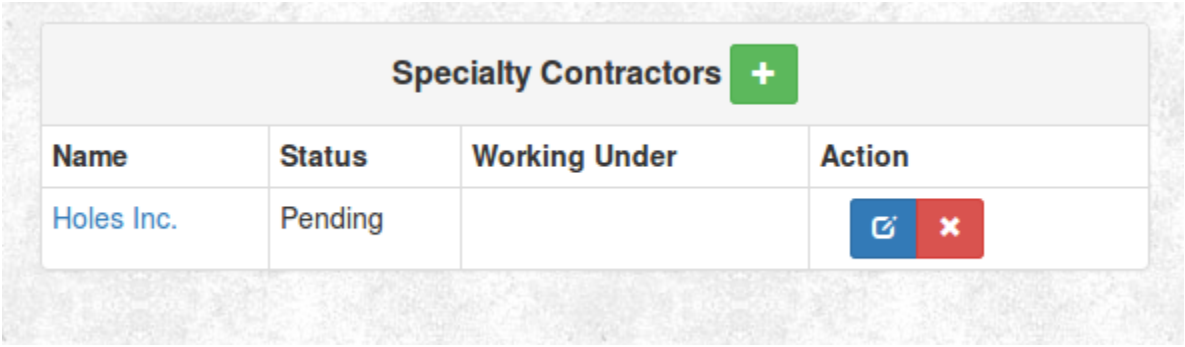


This wi

After adding the specialty contractor, you will be redirected to the project page, where you will the see the Specialty Contractor listed in the specialty contractors table.

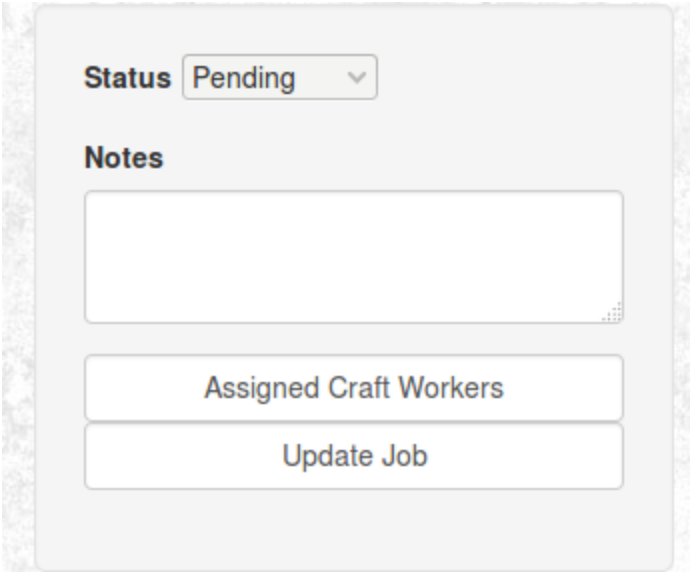
4.5. Removing a contractor from a project

To remove a Specialty Contractor from a project, click the red trash button next to their name on the specialty contractors table.



4.6. I

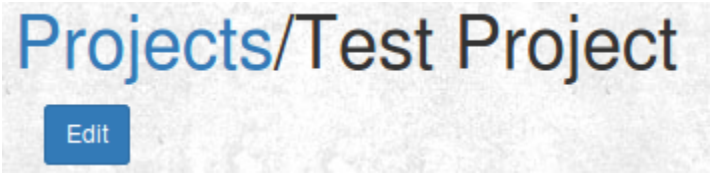
To edit a Specialty Contractor, click the blue edit button next to their name on the specialty contractors table.



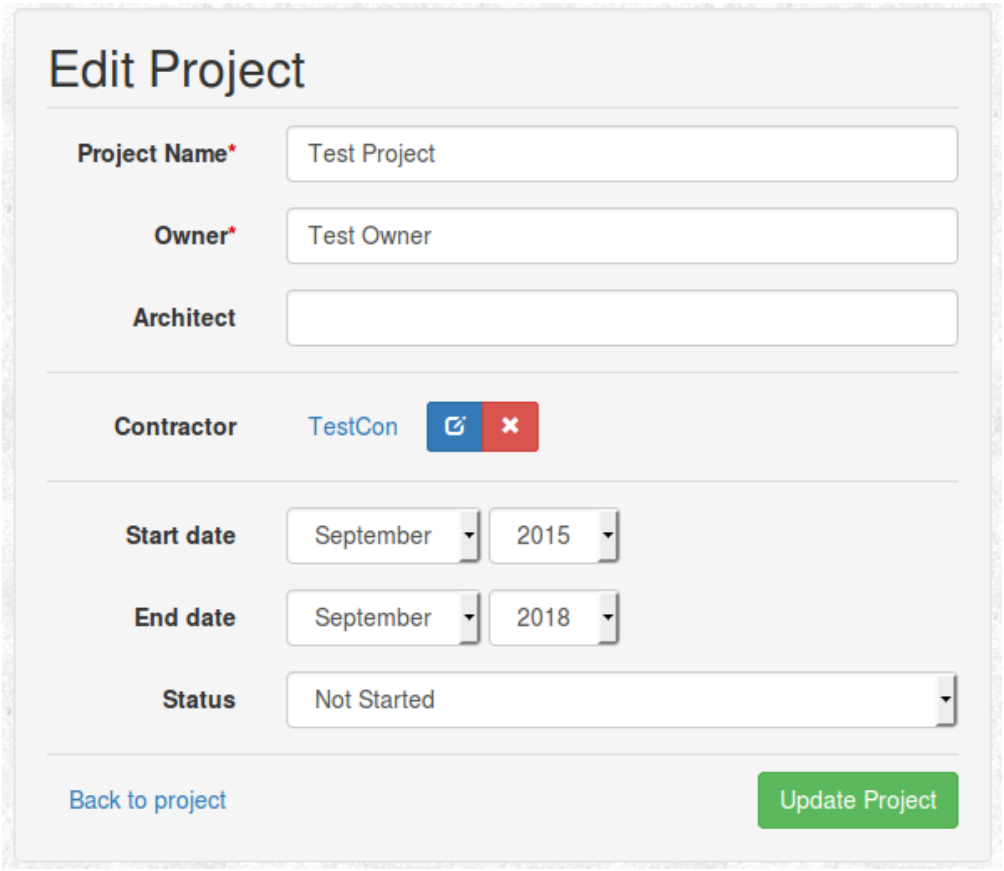
From here, there will be an assigned craft workers button on the form that will take you to a page that lists only that Specialty Contractor's craft workers that are assigned to that project.

4.7. Project Contractor: Editing a project

To edit a project on which you are the contractor, click the blue edit button under the project name at the top of the project page.



This will take you to the project form. Here you can change the status, name, owner, architect and start and end dates of the project.

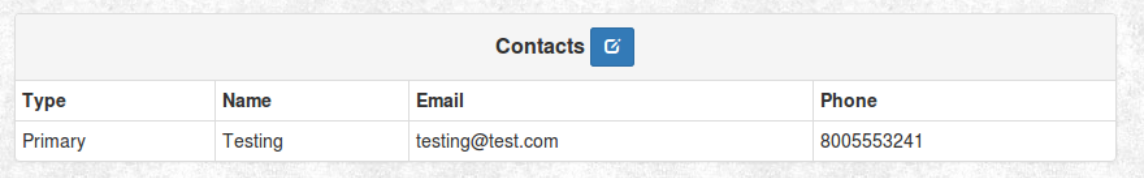


From here you may edit your own project status or view your own employees assigned to the project by clicking the blue button next to the contractor's name. You may also remove yourself as the contractor of the project by clicking the red button.

5. Managing your company

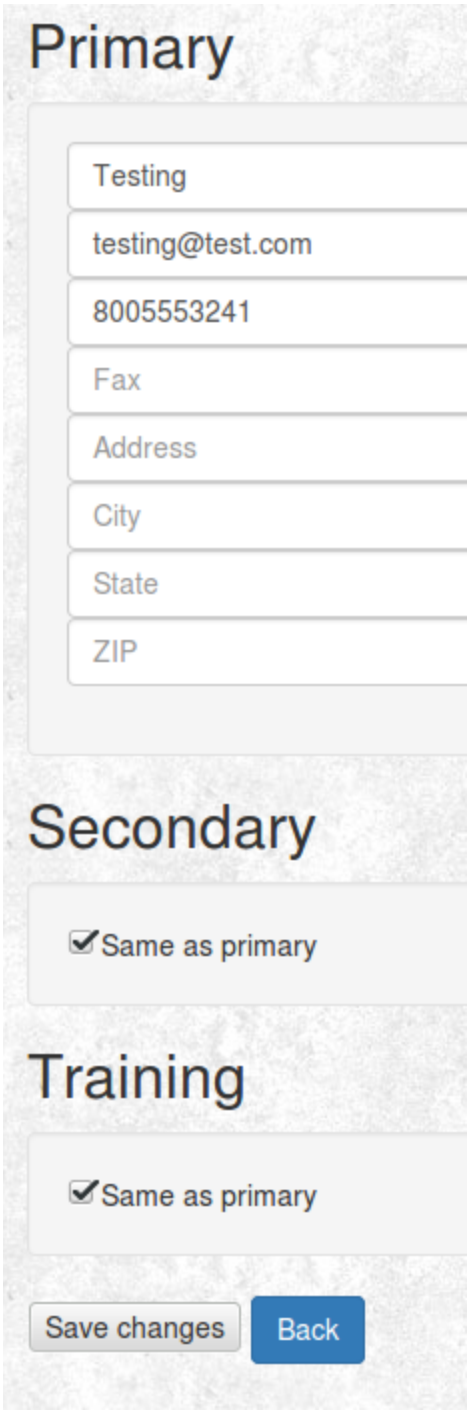
5.1. Updating contact information

To edit the contact information for your company, click the edit button on the contacts table on the company profile page.



This will take you to the edit contacts form. Here you can specify a primary contact, a secondary contact and a training contact.

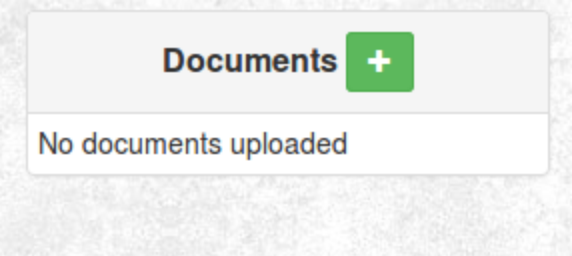
If one of the contact fields is not needed, check the 'same as primary' box.



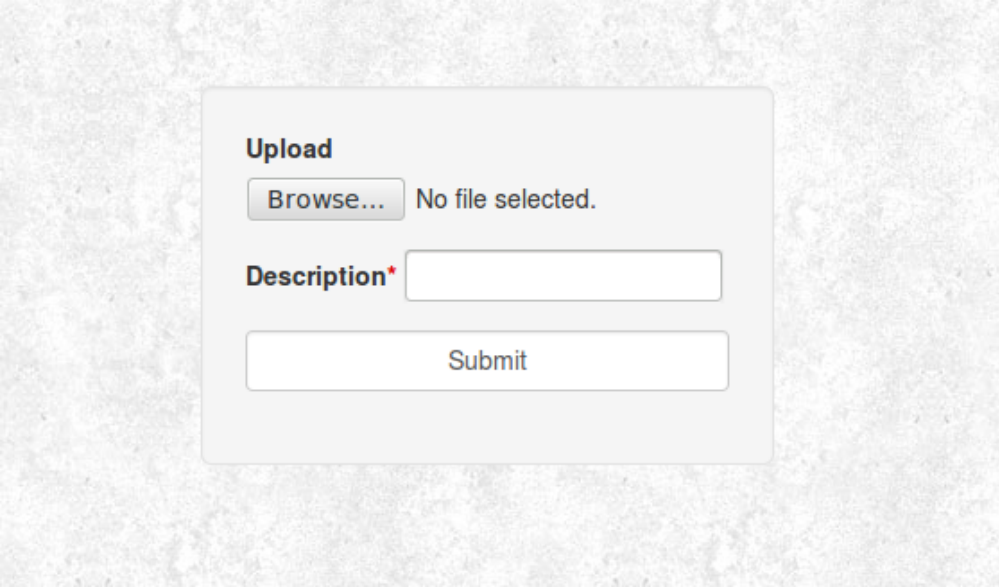
Click save changes to save the contact information.

5.2. Adding a document

To upload a document to your company's profile, click the green plus on the documents panel on the company profile page.



You will be taken to a page where you can select a file to upload and add a description. You may upload either images or PDF documents.

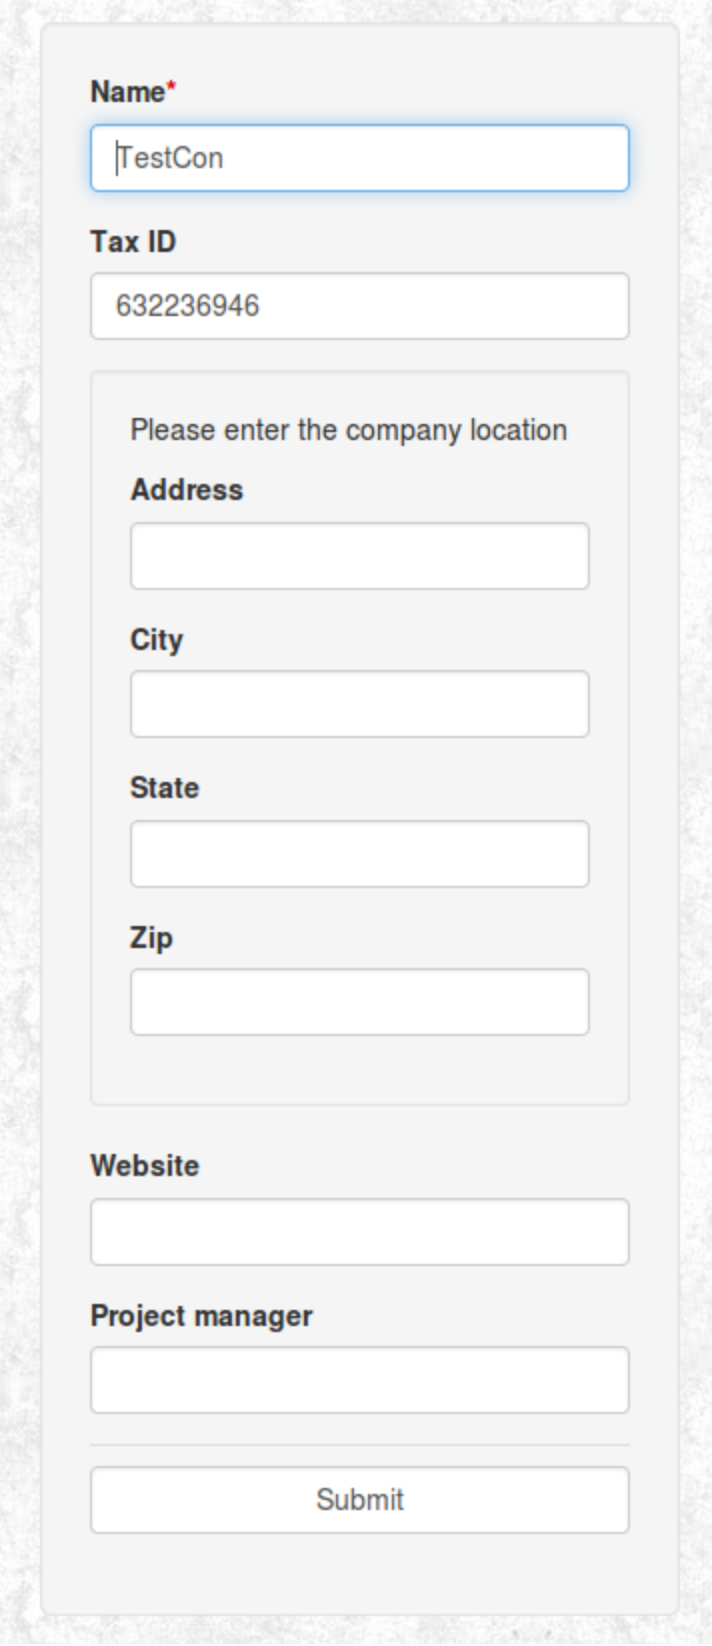


Click submit to add the file to your company. If the document was successfully uploaded, you will be redirected back to your company profile, where you will see the document added to the documents table.

5.3. Admin: Editing company information

Your company's information such as name, address, or website can be edited at any time by an administrator user. Go to your company's profile page and click the blue edit button underneath your company's name at the top of the page.

This will take you to the edit company form where you can edit the name, tax ID, address, city, state, zip code, website and project manager for the company.

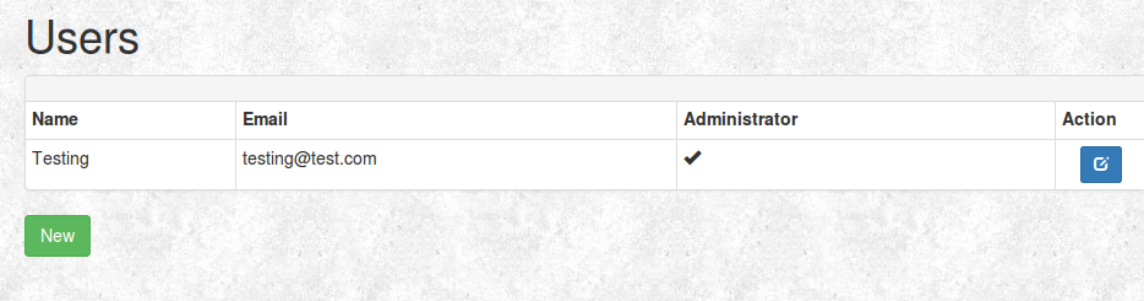


When you are satisfied with any changes, click the submit button to save your entries.

5.4. Admin: Managing company users

As a company administrator, you have the ability to manage the other users registered for your company. To do this, click the 'manage users' link located on the company profile.

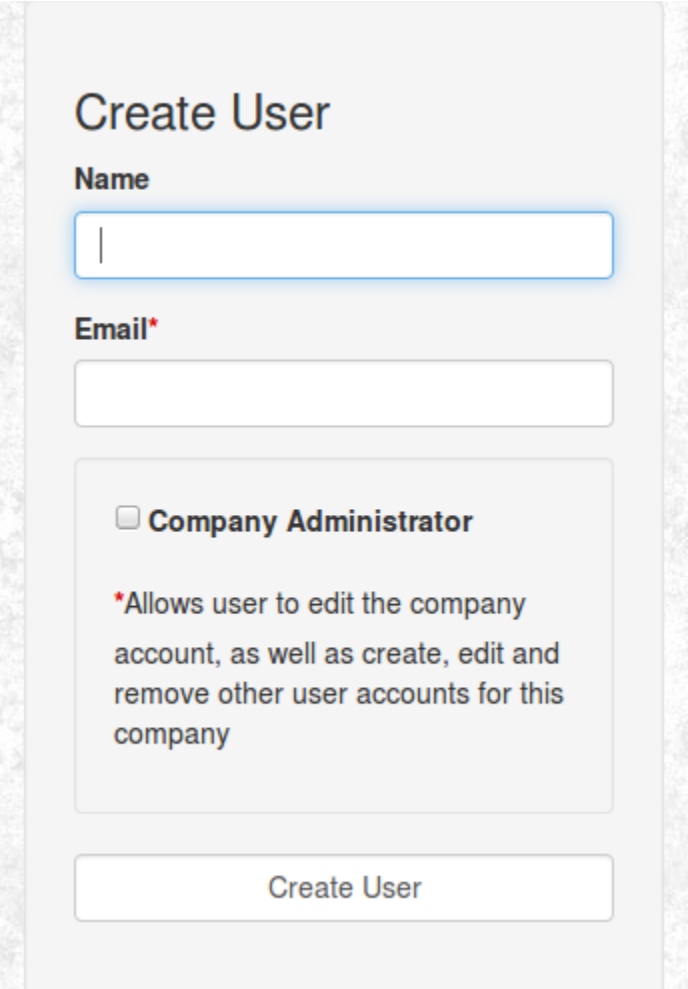
This will take you to a list of all users on your company's account.



5.4.1. Adding a new user

To add a new user for your company, click the green 'new' button at the bottom left of the page.

This will take you the user form where you will be asked to specify a name and an email address for the user.



Create User
Name
Email*
Company Administrator
*Allows user to edit the company account, as well as create, edit and remove other user accounts for this company
Create User

There is also a check box for giving the user company administrator privileges. This allows the user to edit the company account, as well as create, edit and remove other users on the company account.

When you have entered the user's information, click the "Create user" button. This will send them a confirmation email to complete the sign-up process.

5.4.2. Deleting a user

To delete a company user, click the red trash button on the appropriate row on the company user list. Note that you cannot delete your own user account.

6. Help and contact

If you run in to any trouble using the database, or you need help with a particular function, please contact your company administrator or C3 representative. Thanks for being a part of C3, and happy crafting!
